| <p>Fatigue: Safety enemy No.1</p> <ul style="list-style-type: none"> Fatigue is a major hazard in the mining and fabrication industry. Do your staff drive long hours to get to sites? How would a fatigue related accident impact on your relationship with your major clients? <p>What about you?</p> <ul style="list-style-type: none"> Can you afford to waste time fitting into the airlines' schedule? Can you afford to waste time driving for hours and hours every time you go to Queensland? How do you value your time? | | | | | | | | | | | | | | | | | | | | |
